ABOUT ME

An Information Technology student with two years of Python programming experience and knowledge in the field of criminology. I'm an efficient and organized team player but can also strive individually on difficult projects, dedicating myself to learn new technologies and programming languages.

EDUCATION

Computer Information Technology Candidate (Expected graduation Jun 2023)   **Vancouver, BC**
BRITISH COLUMBIA INSTITUTE OF TECHNOLOGY

- Managed and troubleshooted systems using CPU-Z, MemTest64, and a multimeter
- Created logical IP networks allowing devices to communicate with each other
- Wrote formal documents such as proposals, recommendation reports, and instruction manuals
- Built, modified, and interacted with databases using MySQL
- Diagnosed issues and constructed scripts with Ubuntu and Vagrant Linux systems
- Designed and developed dynamic websites using HTML, CSS, and JavaScript
- Used Node, Express, React, and Socket.io JavaScript to program online servers on localhost ports
- Programmed applications and games that can interact and respond to commands with Python

Completed coursework towards Bachelor of Arts (B.A.) Criminology (Jun 2020)   **Burnaby, BC**
SIMON FRASER UNIVERSITY

- Studied the statistics of crime and how it affects multiple sectors within a society
- Learned the effects of drugs, and mental health in society

PROFESSIONAL EXPERIENCE

Ma Now Thai Kitchen   **Coquitlam, BC**
Prep Cook   *Jun 2018 - Present*

- Inspect and clean food preparation areas to ensure safe and sanitary food-handling practices.
- Test food to make sure they are up to standards and have the quality to be presented.

Pinetree Community Center   **Coquitlam, BC**
Community Volunteer   *Jan 2018 - Jul 2018*

- Assisted children in preparing meals, teaching food safety, and guiding them in daily activities.
- Positively encouraged children while building a strong bond of trust and support.

SKILLS
